

# Session of the PIARC Committee Road Safety

## The Potentials of Road Infrastructure and Traffic Regulations for a sustainable Road Safety

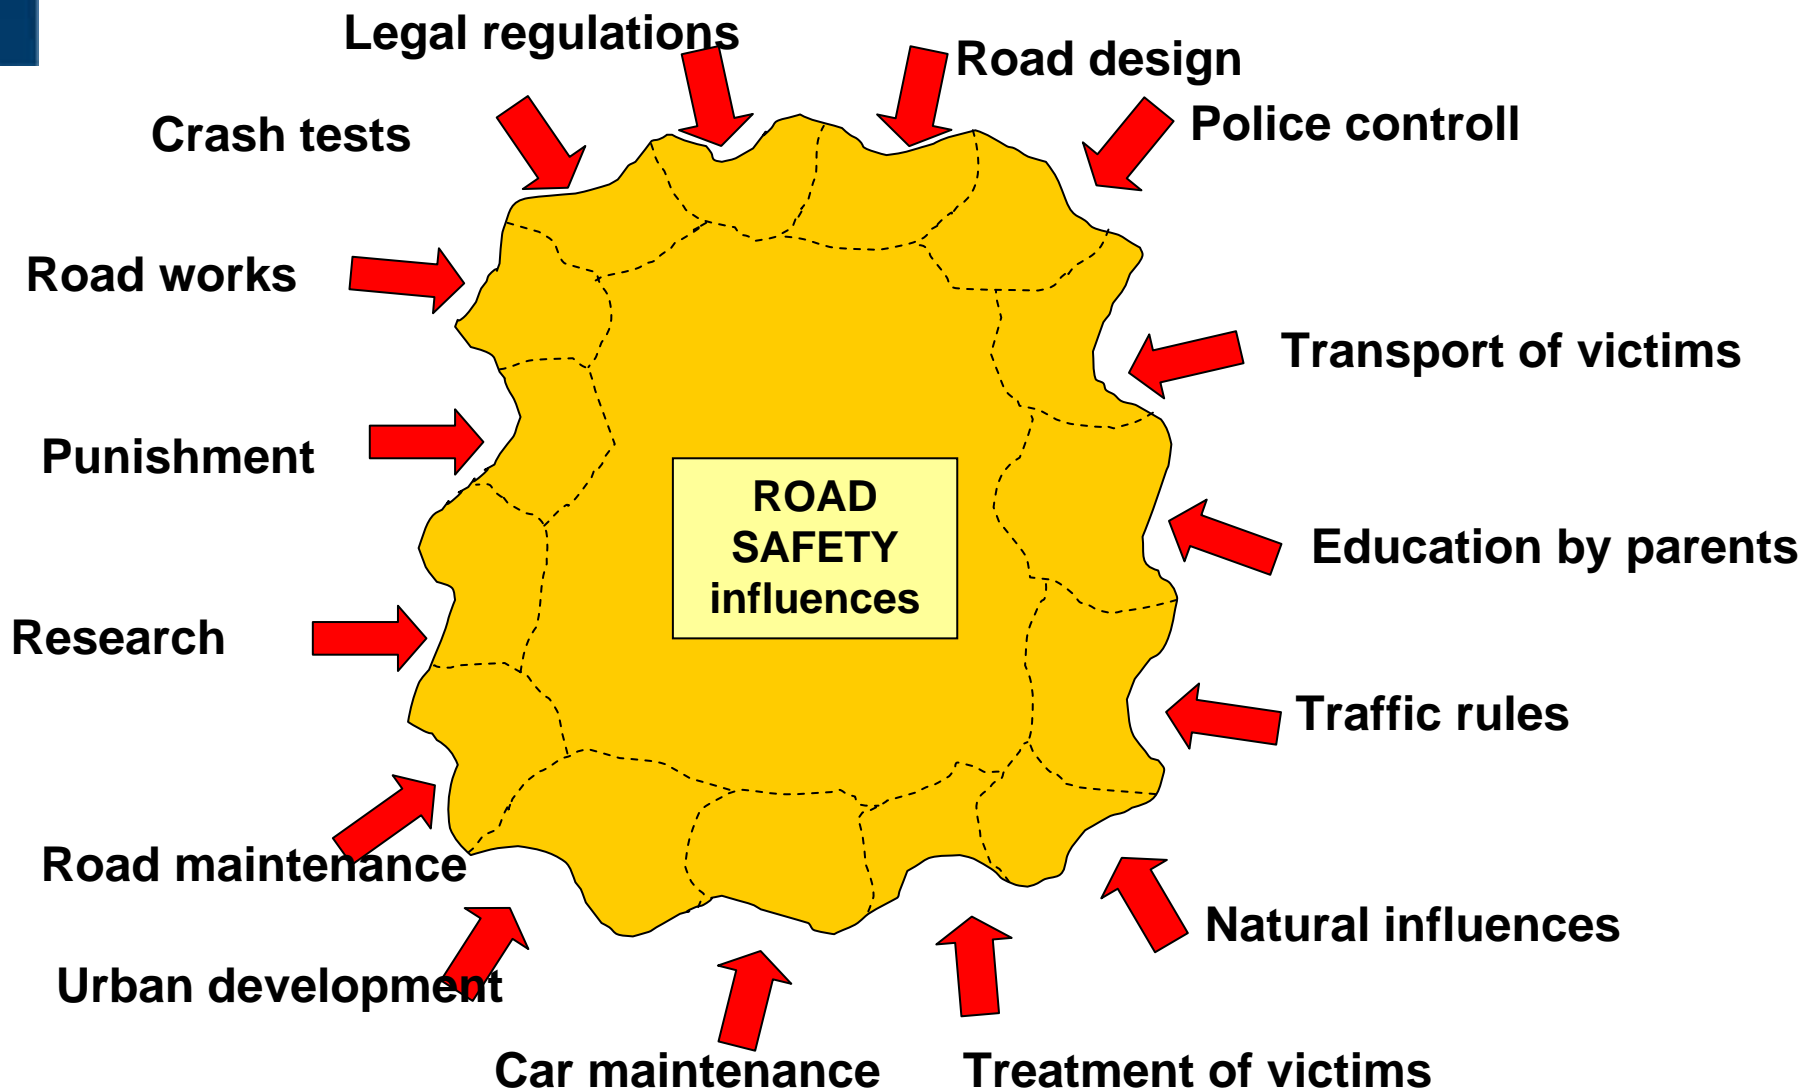

**Chaired by Hans-Joachim Vollpracht**  
**Chairman of TC 3.1**  
**[h\\_vollpracht@hotmail.com](mailto:h_vollpracht@hotmail.com)**

# They call them coffin roads

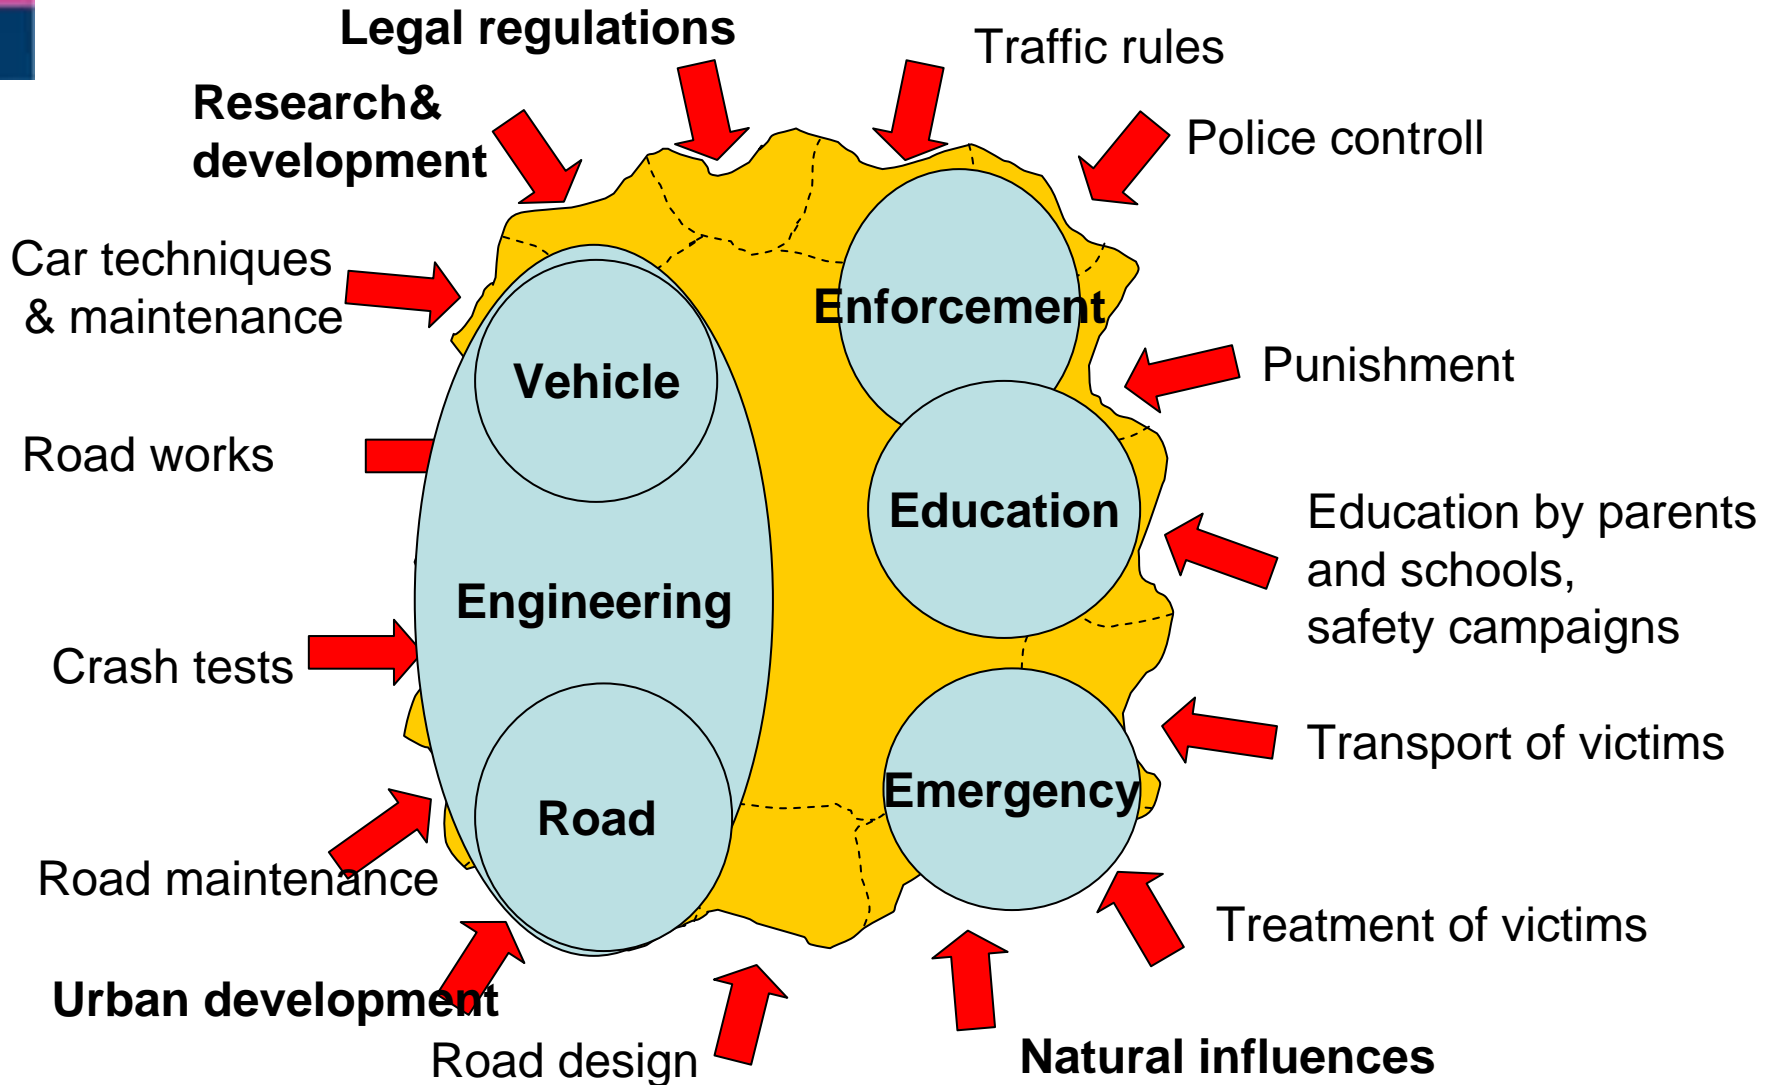

But in their statistics only 3% of the accidents are caused by infrastructure deficiencies

# Road Transport Safety is .....

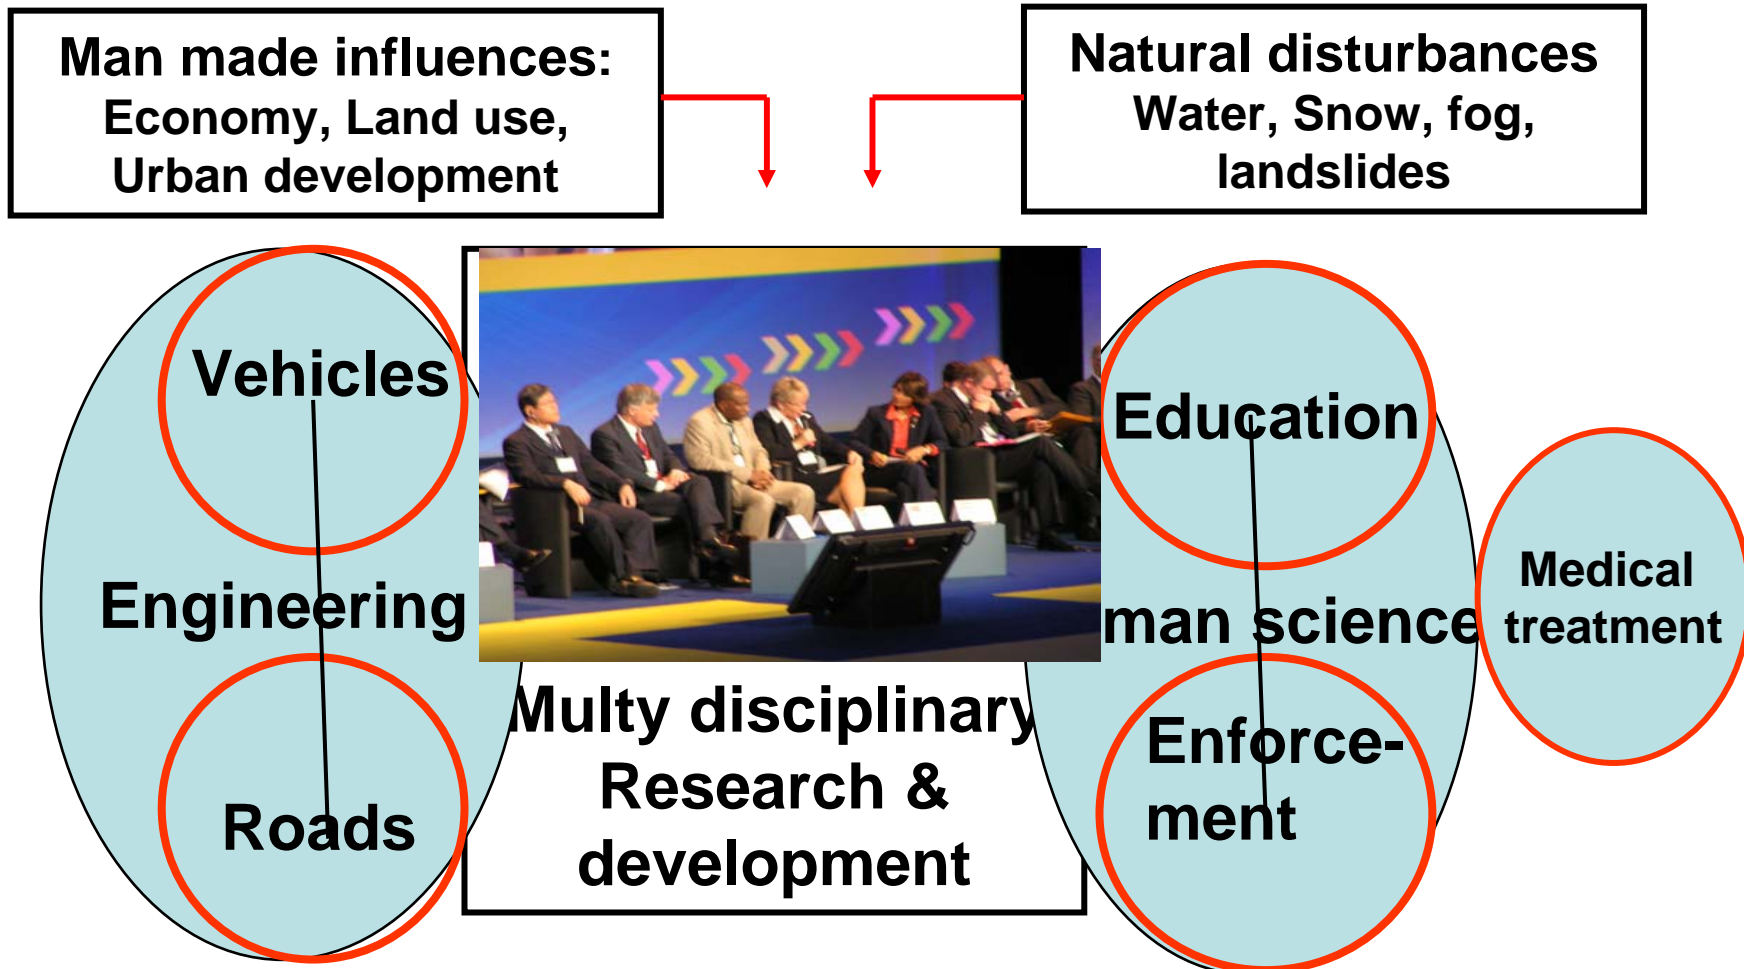

**a complex issue**

# The five „E`s“ of road safety activities

# The Road Transport Safety System ...

**...has has two axes and four wheels.  
What makes the wheels go arround?**

# The Road Safety Policy Circle
